

People's Emergency Briefing inspires action

FAIRER WORLD LINDFIELD

By Maggie Lloyd, Fairer World Lindfield
Members of Fairer World Lindfield organised a screening of 'The People's Emergency Briefing' recently at Haywards Heath college.

The theatre was a perfect venue and, on a very hot night, surprisingly cool!

The film, presented by Chris Packham, brought together a panel of experts who shared evidence about the current climate and nature crisis and how it will affect all areas of our daily lives. Members of the public also shared their responses.

It was an informative and impactful film that highlighted the urgency of the situation, but still gave hope for our future.

The event was very well supported and there were lots of interesting comments and suggestions from the audience. One thing we could all do is to engage with our local MP and policy makers to make our voices heard about our climate and nature crisis.
